FOR IMMEDIATE RELEASE

Evolve Chile Ski and Snowboard Camp Partners With Valle Nevado Ski Resort

VALLE NEVADO, CHILE – Evolve Chile Ski and Snowboard Camp is proud to announce world-renowned Valle Nevado Ski Resort as its official Chilean mountain partner for the 2010 Chilean winter season.

The partnership introduces a host of new exclusive benefits to Evolve Chile campers and guests,

“Partnering with Valle Nevado allows our campers access to the best snow in South America, terrain, jumps, park features and lodging available to a summer ski and snowboard camp,” and all of this is just a few steps away from our hotel..said Evolve Chile President Daniel Rinzler.

“Our good friend Arnau Fernandez and his talented terrain park staff are dedicated to creating the most innovative and dialed features for guest pro team photo shoots and campers alike,” added Daniel. “Although our main focus isn’t park we have access to the best park and crew in South America”

Valle Nevado will continue to have a lift specific to the park. This means no hiking and spending more time hiking world-class terrain park features. Campers can spend mornings tearing around the mountain in fresh powder and terrain for all riding abilities and afternoons in the most dialed terrain park they’ve ever ridden.

Terrain park riding goes into the night at Evolve Chile’s. On certain nights campers can session w a night-lit mini jump line and rail park just a few minutes away from the resort. The fun never stops at Evolve Chile.

“Valle Nevado has always given riders from all over world the best snow in the southern hemisphere. Valle Nevado will continue to give our campers top-quality service and facilities,” said Rinzler.

Valle Nevado added two new lifts accessing five new slopes of moderate and advance difficulty. One lift is a double chairlift located in the Ballicas sector. The other is a drag ski lift ascending to the highest mountain area in the Inca Valley zone.

“These are just some of the investments and innovations that we have planned to continue being the best ski resort in the Southern Hemisphere,” said Valle Nevado General Manager Ricardo Margulis.

Both lifts will be operative for the 2010 season and can carry as many as 1,300 people per hour.

Evolve Chile ski and snowboard camp is a unique program for skiers and snowboarders of all ages who love freestyle riding. The coaches and staff are more than just a group getting together for coaching and freeriding. Evolve Chile actively pursues opportunities to learn about surrounding cultures and give back through civil action projects. Our coaches focus on every aspect of freeriding and freestyle – from basic fundamentals to fine tuning the most difficult and technical tricks in

the snowsports world. Evolve Chile coaches and staff work as a team to create a friendly and fun experience for everyone involved.
